

What The Judges Look For

Always make sure while auditioning that you smile. A smile can cover up big mistakes in the routine.

Point your toes while doing any techniques as well as kicks.

Go as low in your splits as possible.

While doing your kicks, keep your legs straight and shoulders back. Height is not important, technique is what we look for.

Keep a good attitude, no matter how frustrated you get. We will only be looking for positive students to be on the dance team.

Practice your turns, leaps, pas de bourre's, chasse's and pivots. Basic technique will be used to go across the floor as well as in the dances.

Prepare three eight counts. If you forget your eight counts while auditioning, keep going! We don't know what your eight counts are.

Reminders

Don't forget to bring your music for eight counts or we will have some at the studio for you to use.

Bring a snack and plenty of water.

Bring jazz shoes if you have them.
